Second Hand Machinery Special Section

## **KONYA AUTOSHOW 2009** **October 20 – 25**

a 7<sup>th</sup> Automobile, Commercial Vehicles, Motorcycle, Bicycle and Accessories Fair

## **The Association of Balkan Chambers and the Partnership Project DIHK – ABC**

*The Association of Balkan Chambers exists since 1994. It unites chambers from 10 countries – the national chamber organizations of Albania, Bosnia & Herzegovina, Bulgaria, Cyprus, Greece, Macedonia, Montenegro, Romania, Serbia and Turkey.*

*The Partnership Project DIHK – ABC has been running since January 2001. The two partners on this Project are the Association of German Chambers of Industry and Commerce (DIHK) and the Association of Balkan Chambers (ABC). It is financed by the German Federal Ministry of Economic Cooperation and Development BMZ.*

*The DIHK-ABC Project is evaluated as one of the most successful partnership initiatives on the Balkans and thus has been prolonged twice. Its main objective is „Promotion of intraregional trade and revitalisation of business relations with the European Union, especially Germany by institutional strengthening of the ABC by improving networking activities“.*

*In the framework of the Project many activities and events have been organized and carried out. From the very beginning in January 2001 till the end of 2008 about 120 seminars for chamber staff and companies from the Balkan region have been carried out. The total number of participants at those seminars is about 3 000. In the framework of the Project about 20 big events such as conferences, business forums, common stands of the ABC at international fairs, cooperation meetings, business delegations to Germany, etc. have been organized with more than 2 400 participants. According to the Project aims about 40 trainings of chamber staff to Germany have been realized and 35 publications have been elaborated and printed.*

*Additionally the Project supports the ABC chamber members in their QMS certification process as till the end of 2008 4 ABC chambers have been certified in QMS and 1 chamber is in certification process. The Project also supports the chambers by providing technical equipment for their needs. A very important achievement of the Project work is the establishment of 4 ABC working groups – European integration, Trade facilitation, Information network and Project sustainability.*

*The DIHK-ABC Project helped in setting a sustainable working environment for continuing executing different ABC initiatives after the end of the Project in 2010. The cooperation sustainability of the ABC is one of the most successful results in the 9-year work of the Project.*
