Brussels, 28 February 2018

EUROCHAMBRES turns 60 with new challenges and traditional values

EUROCHAMBRES, the Association of European Chambers of Commerce and Industry, celebrates its 60th anniversary on the 28th of February of this year. The festivities for this celebration took will place in Brussels on the 26th of April –the city in which is based its Permanent General-Secretariat since 1977.

EUROCHAMBRES was the first business organisation to be set up at European level following the signing of the Treaty of Rome. Its unique specificity lays in the fact that it is the only European business organisation whose members actively work together for the development and growth of companies, as well as for the economic development of their regions.

The Asocciation was founded exactly 60 years ago, on **28 February 1958**, when the Directors of the National Chambers of Belgium, France, West Germany, Italy, Luxembourg and The Netherlands held their first Assembly in Strasbourg and announced the creation of the "Conférence Permanente des Chambres de Commerce et d'Industrie de la CEE" to promote the views of Chamber organisations at the European level and to form opinions regarding the modifications to be made to commercial legislation.

"As in nature everything evolves, the initial creature has evolved, through the years, rewarding those characters that were wining over the others, shaping to what we know today as EUROCHAMBRES", said Christoph Leitl, President of EUROCHAMBRES.

The network has expanded progressively through the years to 44 national associations plus 2 transnational organisations of Chambers from an enlarged Europe. This represents a European network of around 1700 regional and local chambers, composed mostly by mmall and medium sized enterprises (SMEs). Chambers' member businesses employ over 120 million people all across Europe.

As part of the anniversary celebrations, EUROCHAMBRES will prepare a declaration to support the European Pillar of Entrepreneurship Rights, to promote a more business-friendly climate at EU and national level. The Association's contribution was announced by the President of EUROCHAMBRES and of WKÖ, Christopher Leitl, to the President of the European Commission, Jean-Claude Juncker, in their recent meeting of 22 of January, and will be delivered soon.
