# Solve Sourcing Problems and Eliminate Supply Chain Risks

Get Reliable Suppliers, Faster

Stop wasting time on eCommerce sites, unverified directories or advertisements. ADAMftd taps into actual customs and shipping records from over 100 countries so you can find the right manufacturers, exporters and wholesalers with confidence.

How It Works

1. Enter your product name, HS code or description.
2. Instantly see every company that has shipped or received the designated product—complete with dates, volumes and origins.
3. View company details online or download the original bills of lading to confirm contacts and volumes.
4. Reach out to pre qualified suppliers who match your exact needs.

Why You'll Love It

Real Data, Real Suppliers
See the exact companies moving your needed products, no guesswork required

Complete Shipping History
Track how much, how often and from where products have been shipped

Quality & Compliance
Download source documents to verify certifications and audit trail

Compare Suppliers Side by Side
Review shipment volumes and pricing to choose the best partner

Early Warning Signals
Spot inconsistent volumes or sudden changes before problems arise

Fast, Intuitive Search
No technical jargon—just type in what you need and get results in seconds

Data Snapshot (Last 12 Months)
Billions of records covering container and bulk shipments

100+ countries, 1,000+ trade lanes
Top categories: automotive parts, machinery, electronics, textiles, food, industrial parts
