На № _____ от _____

**To the President
of Bulgarian Chamber of
Commerce and Industry
Mr. Tsevatan Simeonov**

Dear Mr. Tsevatan Simeonov,

The Embassy of the Kyrgyz Republic presents its compliments and has the honor to address on the following issue.

In the application, we send a list of medical equipment and supplies for the needs of laboratory research necessary for the purchase, indicating the required quantity.

Given the active and friendly interaction of our countries aimed at developing and strengthening Kyrgyz-Bulgarian relations in all areas, the Embassy kindly asks to consider the availability and possibility of providing, supplying the medical needs specified in the application, as well as indicate prices in dollar terms per unit.

For all additional questions, you can contact the Embassy employee Ermek Kanybekov by phone + 380-99-757-34-13 (WhatsApp, Viber - English-Russian speaking).

The Embassy of the Kyrgyz Republic takes this opportunity to thank you and hopes for further fruitful cooperation and an early reply.

Enclosure: mentioned, on 5 pages.

Best regards,

**Ambassador Extraordinary and
Plenipotentiary of the Kyrgyz Republic
in the Republic of Bulgaria**

Zh. Sharipov

The need for medical equipment

No	Name	Unit of measurement	Number
1	Ventilator (Medical)	pieces	220
2	Portable ventilator (Medical)	pieces	40
3	Biphasic Positive Airway Pressure (BIPAP)	pieces	256
4	Bidirectional flow device	pieces	256
5	Oxygen Concentrator 10 L / 4 atm	pieces	300
6	Oxygen Concentrator 5 L / 1 atm	pieces	2000
7	Bedside monitor	pieces	256
8	Pulse oximeter	pieces	120
9	Surgical suction unit 1 L	pieces	216
10	Laryngoscope	pieces	160
11	Stainless Steel Tongue Depressor (Set)	pieces	200
12	Drip rate infusion pump	pieces	256
13	Infusion syringe pump	pieces	256
14	Intravenous infusion stand	pieces	192
15	Medical 3-section bed	pieces	256
16	Defibrillator	pieces	40
17	Mobile X-ray machine	pieces	40
18	Portable ultrasound machine	pieces	40
19	Medical quartz lamp	pieces	800
20	Air disinfectant	pieces	160
21	Medical Gas Analyzers, syringes for sampling	pieces	40
22	Bobrov's Humidifier of oxygen	pieces	800
23	ECG machine	pieces	40
24	Medical isolation and transportation box for patients infected with dangerous viral infections	pieces	128
25	Glucometer with test strips	pieces	64
26	Manual InfraRed Thermometer	pieces	80

The need for consumables for diagnostic laboratories COVID-19 in the country for 12 months.

No	Name of items	Technical parameters of the product (brief description of the product. Shelf life packing form, etc.)	Units	Number
Reagents				
1	Disposable Napkin 10x10	for cleaning of work surfaces and consumables in the study	pack	2000
2	Universal tips for dispensers without filter 20-200 µl disposable, sterile (1000 pcs per pack)	for dosed sampling, reagents of virus (for dispensers Biohit, Sartorius)	pack	500
3	Universal tips for dispensers with a filter of 0.5-10 µl, (1000 pcs per pack.) RNase / DNase-free, pyrogen-free, disposable, sterile.		pack	500
4	Universal tips for dispensers with a filter of 50 µl, in a tripod (sterile, USA, 96 pcs. / tripod. 10 tripods in one package)	for dosed sampling, reagents of virus (for dispensers Biohit, Sartorius)	pack	600

5	Universal tips for dispensers with 200 µl filter, free of RNase / Dnase. Sterile (pack 1000 pcs)	pack	500
6	Universal tips for dispensers with a 100 µl filter, free of RNase / DNase. Sterile (pack 1000 pcs)	pack	500
7	Universal dispenser tips with 1000 µl filter, RNase / DNase-free. Sterile (pack 1000 pcs)	pack	500
8	1.5 ml graduated microcentrifuge tubes (sterile, USA) (pack 250 pcs.)	pack	5000
9	Thin-walled test tubes for PCR with a flat cap of 0.2 ml (sterile, USA, 1000pcs / pack)	pack	800
10	PCR tubes with a transparent cap, stripped in 8 pieces, 0.1 ml each (sterile, 1000pcs / pack)	pack	800

for a PCR test

for a PCR test

11	Cryovials 2.0 ml (graduated, free-standing, sterile) 50pcs. Per pack)		pack	10000
12	Universal Transport Medium (UTM) for the collection, transport and preservation of virus. Test tube 16x100 mm with screw cap, filled with 3 ml of transport medium. UTM 50 pieces per pack; 6 x 50 pieces per box		pieces	500000
13	Flexible nasopharyngeal velor swab, nylon tip, plastic applicator, sterile. The distance to the fracture point is 100 mm in an individual package.		pieces	200000
14	Disposable caps (blue color)		pieces	500000
15	Disposable shoe covers from elastomer		pieces	500000
16	Medical examination gloves Sempercure 5-6 size, powder-free, nitrile (pack. 100 pcs).		pack	5000
17	S-T Medical examination gloves Sempercure 6-7 size, powder-free, nitrile (pack 100 pcs).	for taking smears, for making a test	pack	5000
18	Disposable surgical masks. 50 pcs in one package (blue color)		pack	10000
19	Пакеты для утилизации медицинских отходов класса А 330*600 мм. 10 л	A 330 * 600 mm. 10 liters waste bags are used for the disposal of medical waste	pieces	2000

20	Waste bags for the disposal of medical waste class B (yellow) 330 * 600 mm. 10 liter	class B 330 * 600 mm. 10 liters waste bags are used for the disposal of medical waste	pieces	2000
21	Pediatric velor swab, nylon tip, plastic applicator, sterile Distance to fracture point 100 mm in individual packaging.	for taking smears from sick children with suspected infection	pieces	500000
22	Surgical SMS gown, disposable, with cuffs, ties on the back, size L, color blue (sterile) (China) in a package of 10 pcs.	used when working with samples to protect personnel	3фцп	500000
23	DP - 2T disinfectant	for cleaning of work surfaces during virus test	vial	500
24	Respirators type FFP5 or equivalent		pieces	500000
25	The spatula wooden, therapeutic, sterile, each spatula is packed in an individual sterile package. 100 pcs per pack	for taking smears from patients with suspected infection	pieces	500000
