THE RANKING OF THE BULGARIAN CHAMBER OF COMMERCE AND INDUSTRY „TOP 100 BULGARIAN COMPANIES LEADING IN THE ECONOMY“

DEAR BUSINESS PARTNERS,

For more than two decades now, the Bulgarian Chamber of Commerce and Industry has been preparing the ranking “TOP 100 Bulgarian companies leading in the economy*”, which is based solely on objective data from the financial reports of companies. In this year’s edition more than 6500 financial reports of companies from the real sector of economy, accounting for 78.63% of the country’s GDP in 2018, have been processed.

Over the past year the business has shown stable and sustainable results, despite the trade disputes in the global economy. Today, circular economy and digitalization of the activity are high on the companies’ agenda. In order for them to be sustainable and competitive in the market, companies must continue to work towards the implementation of innovation and green policies.

Bulgarian exports have reached record levels. Despite the expected worsening and slowing down of the Bulgarian and world economies, our country shows good tendencies of maintaining and improving its main macro indicators, which is also due to the growing domestic demand.

BCCI continues to develop and improve the objectivity of the classification. For the first time, we have included categories that take into account a combination of several different criteria (all of which objective) and give a more comprehensive assessment of the overall performance of the companies.

We have kept the opportunity for each of the ranked companies to obtain a certificate for their place in the classification. Companies that have not managed to submit their financial reports on time to participate in the TOP 100 classification, can send their data and check their place in the dynamic ranking TOP 1500.

Thanks to the continuing cooperation with the National High School in Finance and Business and the National Trade and Banking High School, the classification has been prepared with the efforts and assistance of students during their internship at BCCI. I express my sincere satisfaction with their motivation and skills.

On behalf of BCCI, I would like to congratulate the companies on their good and sustainable performance.

With a wish for even better results, I remain

Yours sincerely,
Tsvetan Simeonov
BCCI President

The ranking of BCCI “TOP 100 Bulgarian companies leading in the economy®”

The main purpose of this presentation is to review the processes of the Bulgarian economy. It should not be used for investment decisions, for the conclusion of agreements and decisions leading to financial consequences. The BCCI recommends the primary sources of information to be referred when necessary.
