of Ukraine

LVIV IT
CLUSTER

Who is it for?

The platform was designed to connect businesses worldwide with verified Ukrainian tech companies

CodeUA is tailored for international companies and entrepreneurs looking for top-tier tech expertise at competitive rates.

Whether you're a startup needing product development, a corporation seeking innovative cloud solutions, or a team exploring web design and consulting, CodeUA connects you with the right partners to elevate your project.

Startups

In need of product development

Corporations

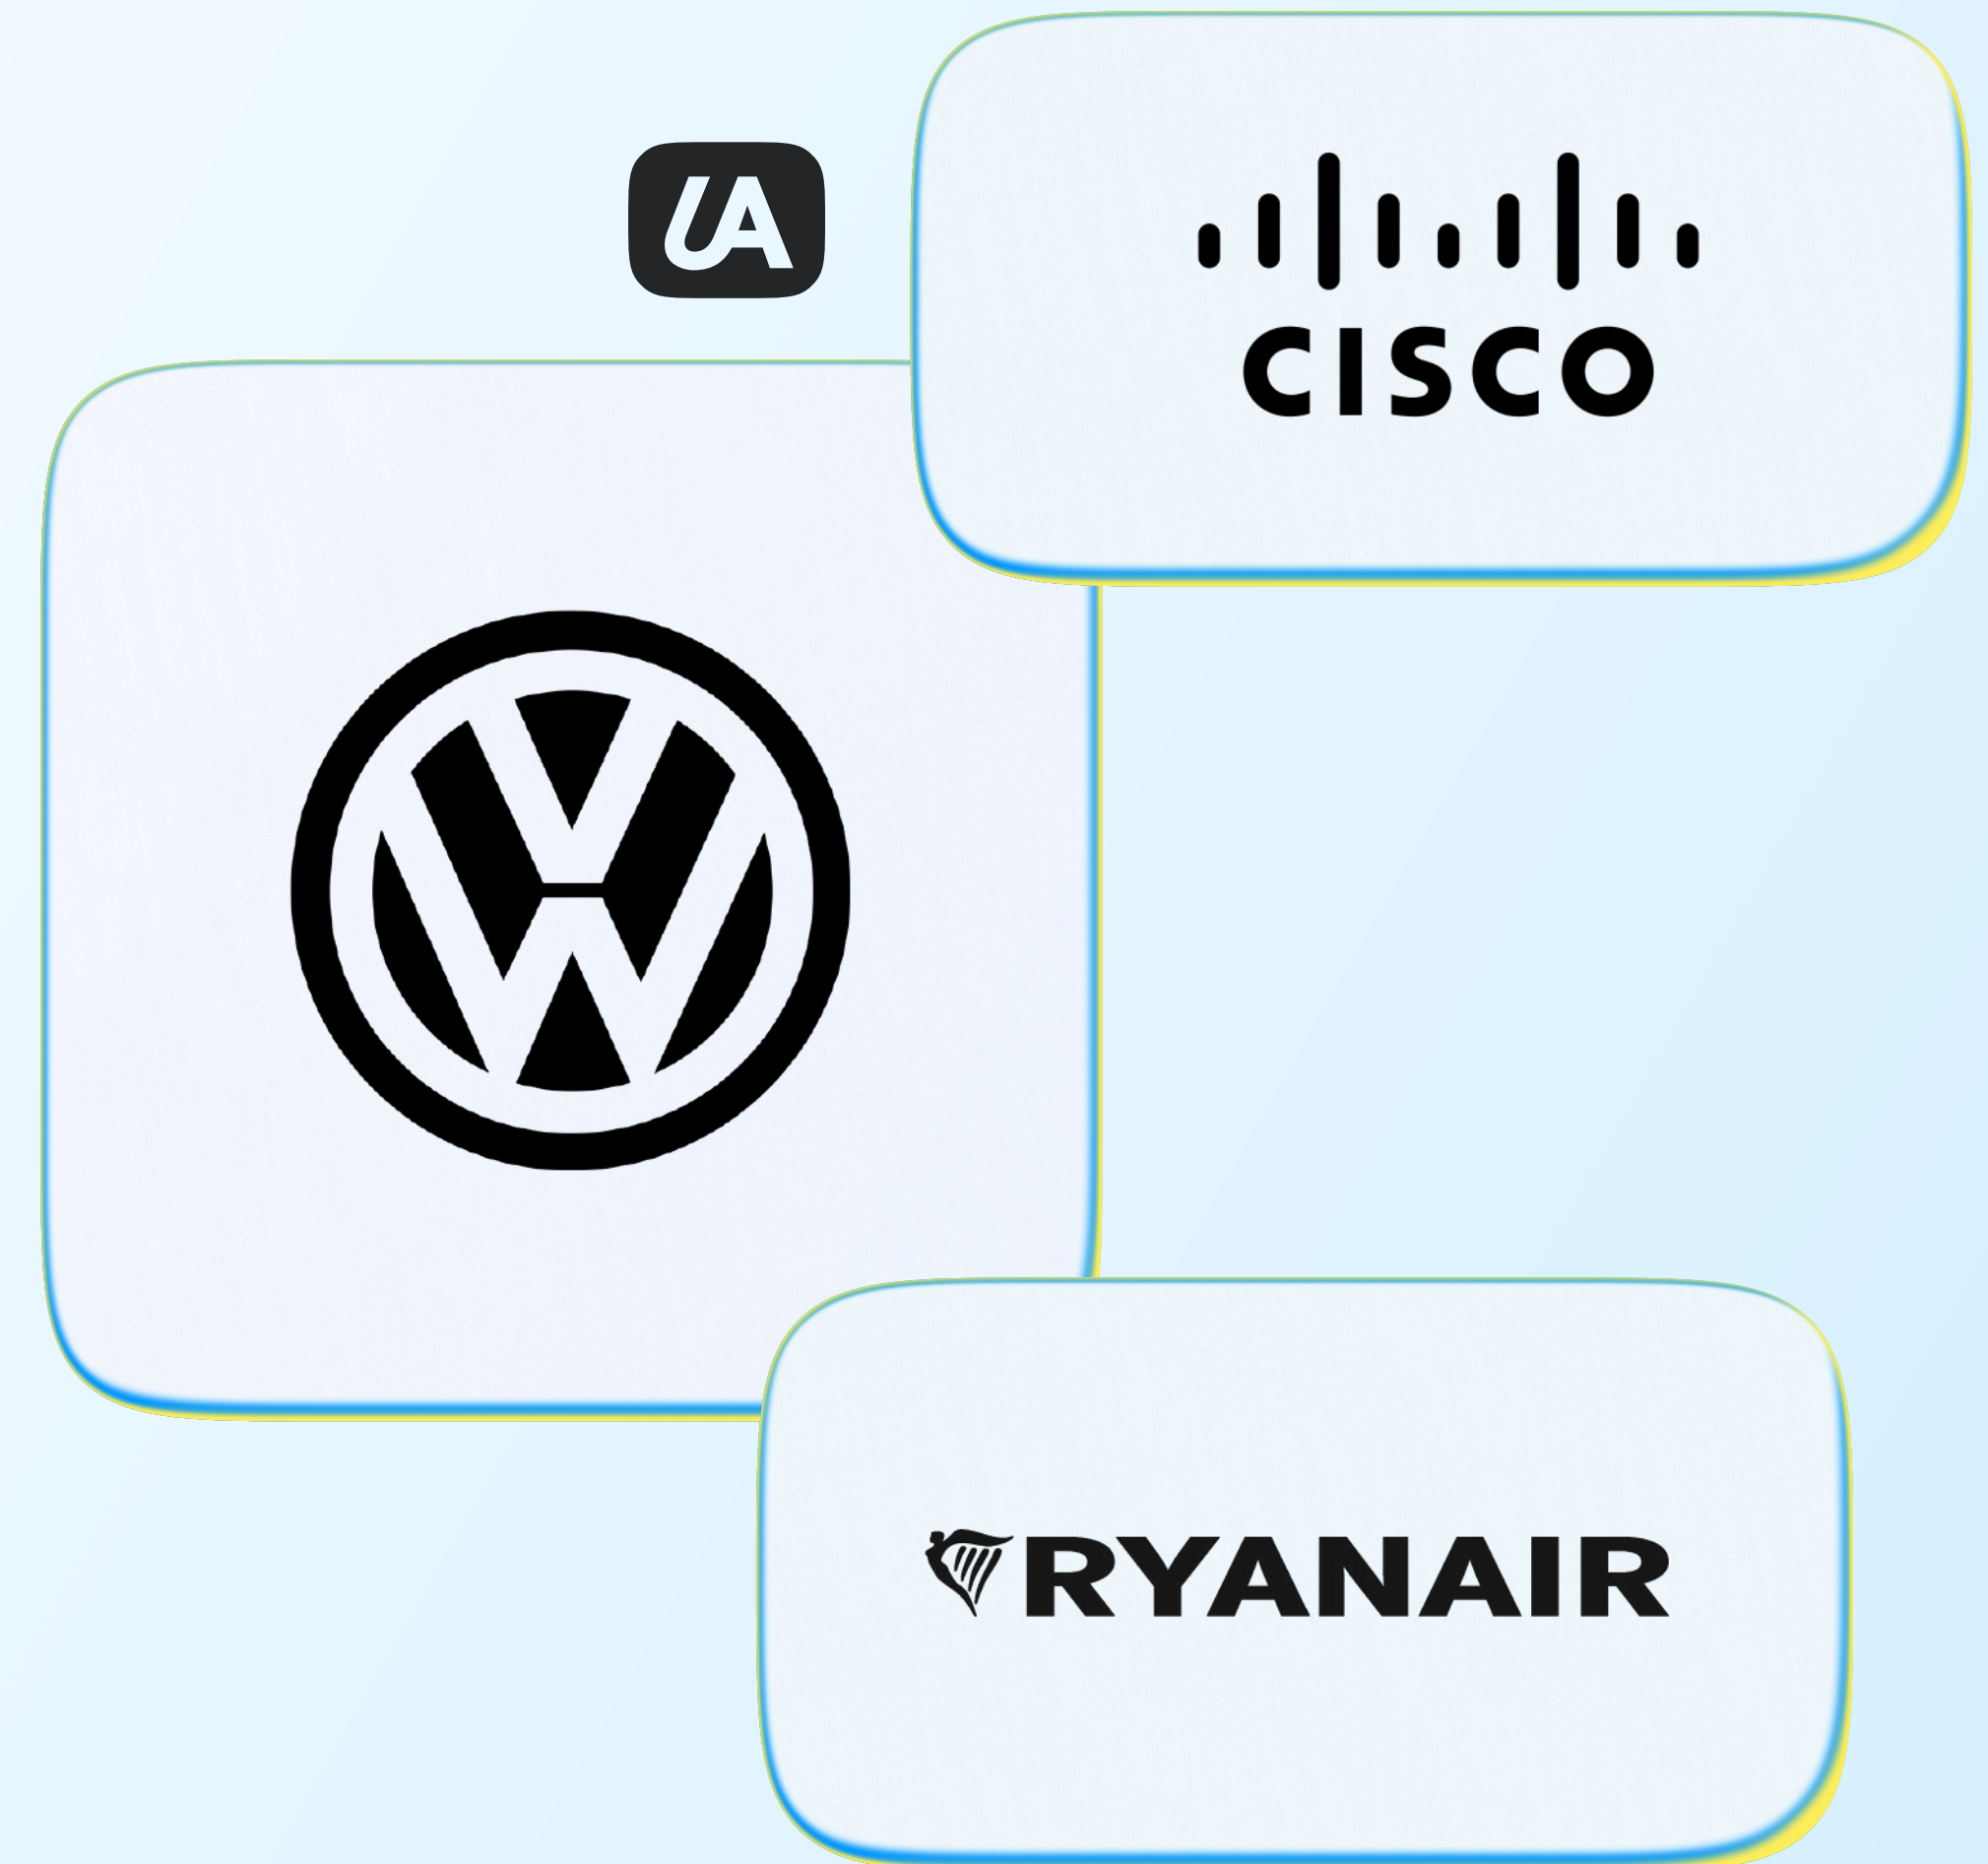

Seeking innovative cloud solutions

Teams

Exploring web design and consulting

Now, it's time to create even more successful stories.

Ukrainian tech specialists deliver incredible solutions used by millions worldwide. Companies like Ryanair, Cisco, Motorola, Volvo, and Volkswagen all have one thing in common – they rely on Ukrainian code.

Clients from
Fortune 500

Trusted by major global
corporations.

There are 304 companies ready
to cooperate on the platform,
and this number is constantly
growing.

Unified code of
service delivery

Shared principles for seamless
development and communication.

Verification

Each company undergoes
a thorough review of its
portfolio and reputation to
ensure transparency.
