HUVE PHARMA, in which HU means 'Human' and VE means 'Veterinary' is one of the fastest growing pharmaceutical companies and has made strong inroads in Indian market. The company focuses on developing, manufacturing & marketing of Human & Veterinary pharma products. It has 5 verticals i.e. Enzymes, HUVE Animal Health, Hygiene, Bio security & Small Animals.

HUVEPHARMA have designed a very robust plan for giving technical support to poultry producers in India extensively focused in Research and Development. HUVEPHARMA is also having collaboration with Symbiosis Bio science for extensive research in the field of Animal Pharma. The technical expertise and tailor made services have been improving with every passing day. Our emphasis is also working on qualitative and affordable food chain sector by educating and empowering the farmer from grass root level so that farmers can become self-efficient to understand the latest technology.

While elaborating the targets of the company in terms of volume and services in India, HUVEPHARMA is ranked number one in anticoccidial medications. HUVEPHARMA is also first in Enzyme Industry. HUVEPHARMA ranked TWO in global market. In India also, we are in top 3 companies, in term of veterinary medicines. The figures speak for itself about the HUVEPHARMA presence and growth in India and overseas.

HUVEPHARMA believes in quality which reflects both in the growing demand product as also in the performance of the birds. The major highlight is that Huvepharma have got the world's largest fermentation plant in Peshtera - Bulgaria, where addition of more than 3,000m³ fermentation capacity will double the production capabilities of the Peshtera site resulting in a 50% increase in Huvepharma's fermentation capacity. This investment will give the company close to 10,000 m³ of fermentation capacity, which makes Huve pharma one of the largest fully integrated animal health production sites in the world. HUVEPHARMA at the same time is in process of acquisition. It has already acquired Biovet, Zelin, Balkapharma – Razgrad, Intervet's Feed Additive unit, Zoetis Global animal health care division strengthening each footstep.

Rakshak Subidha Pvt Ltd provides high quality well trained security personnel at clients' facilities and institutions. We are committed to providing professional security solutions that are backed by a team of professionals, modern technology and human ingenuity. RAKSHAK'S approach is unconventional but effective. It does not look at protection as a mere deployment of men and machines. Protection, for Rakshak is a combination of ingenuity, intelligence and resources.

Large organizations devote a proportion of their budgets to securing their interests at acceptable levels. The variety of serious threats to our public and private assets requires extensive and specialist assistance to protect them. There are, moreover many assets, such as neighborhoods and social stability, which confer community rather than private benefits.

RAKSHAK'S role is to control risks involving the things we value, like our bodies, our families, public peace, integrity, personal belongings and so on. The measures that RAKSHAK takes to protect assets are controls and they include prevention, investigation, avoidance, detection, protective security and surveillance.

Protection is a multi-dimensional activity. Its demands more than what are expected. Be it the visit of a VVIP, the protection of a factory from theft and arson, investigations into workers' union affairs, security for a residential complex, personal bodyguard, security for high-tension towers and construction sites — RAKSHAK has an answer and a solution.
