OUR BRAND

TILES CARREAUX is an Indian brand with a rich international taste. We export our products under the name TC. The letter T in TC means TILES in English while C means CARREAUX in French. Our logo explains our aspiration of strengthening bonds and ensuring the highest customer satisfaction in English and French countries.

OUR VISION

To become a market leader selling tiles and sanitary wares, the company has made an effort to offer customers a cutting edge product. All while providing stellar customer services as well as being environmentally conscious.

We hope to enlarge our market to over 100 countries in the coming 5 years and for the time being, TILES CARREAUX operates in 60 countries in Africa, Europe and the GCC region.

OUR MISSION

We aim to make customers happy by designing new products that are in trend and low cost. We try to follow new ideas while trying to keep costs low, helping us add value to everyone. Thus why we focus on finding quality and creative output products for our customers.

T. N. Sys Meryl Pharma

T. N. Sys Meryl Pharma a pharma manufacturing company established in 1997.

Popularly known for its flag ship Brand – Amnio seal and Gamine Forte.

T. N. Sys Meryl Pharma is also known for its academic spreads, company spent substantially.

Good amount from its profit and other resource to promote clinical research and molecular development at institutional level, mainly medical colleges and district hospital level.

T. N. Sys Meryl Pharma is mainly engaged in manufacturing and ethical promotion in domestic market as well in neighboring countries like Republic of Nepal and Sri Lanka, Bangladesh, Myanmar, Recently we explored Western Africa and entered with sporadic presence in Republic Of Ghana and other Ecowas countries with our small range of products (All research products) and getting response, as on date we are number one in dealing many such core issues of Gynecology and Obstetrics which were never been addressed by Pharma research areas are mainly I.U.G.R , PROM, OLIGOHYDRAMNIOS, Male and Female infertility.

For above such objective our manufacturing facilities supporting us at its best since

These carry good research lab equipment's along with quality control at our manufacturing side we have two manufacturing facilities.

1st and older one is at Ujjain Madhya Pradesh.

2nd and newer one is at Jammu (Bari Brahmana Dist. Samba Jammu & Kashmir).

Our vision and objective is very clear and gradually achieving too.

T. N. Sys Meryl Pharma is mainly operating in Obstetric issues where we have developed good niche.

Timo Eva Wellness Private Limited

Timo Eva Wellness Private Limited, founded in 2012 by Dr. Elangovan, is a pioneering force in the animal health sector, dedicated to improving the wellbeing of poultry, pets, and livestock. With our main stronghold in India, we have established ourselves as a trusted leader by delivering high-quality, cost-effective veterinary solutions. Combining deep technical expertise, innovative marketing, and an unwavering commitment to animal wellness, we are driving advancements in the industry both domestically and beyond.

Our Vision and Commitment

Our vision is to position Timo Eva Wellness as a global leader in animal health, offering affordable, cutting-edge veterinary products that enhance lives. At the heart of our operations is a professional team of veterinarians, animal health specialists, and industry veterans who collaborate seamlessly from research to commercialization. Our in-house Research & Development (R&D) team develops breakthrough solutions tailored to the unique needs of poultry, pets, and livestock. Every product undergoes rigorous testing to ensure efficacy, safety, and sustainability, reflecting our dedication to excellence and innovation.

Global Presence with Roots in India

While our primary stronghold remains in India, Timo Eva Wellness is expanding its global footprint. A significant milestone is our presence in the United Kingdom through a UK-based subsidiary, which serves as a strategic hub for European operations. Beyond the UK, we are actively strengthening our reach across multiple countries, leveraging partnerships and innovative products to deliver value worldwide. This expansion aligns with our goal of becoming a trusted name in animal health, addressing the diverse needs of veterinarians, livestock owners, and the pet care industry globally, while building on our robust foundation in India.

Research & Development Excellence

Our R&D division is central to our success, focusing on advanced veterinary solutions to meet evolving challenges like antibiotic resistance and the demand for sustainable alternatives. Based in India, our experienced R&D team collaborates with leading academic institutions and industry experts to develop pharmaceuticals, probiotics, nutritional supplements, and vaccines. With a commitment to sustainability, we prioritize eco-friendly products that minimize environmental impact and uphold animal welfare, ensuring compliance with both local and global standards.

Sustainability as a Core Principle

Sustainability is woven into our operations, guided by the United Nations Sustainable Development Goals (SDGs), including responsible consumption, climate action, and biodiversity protection. From our stronghold in India, we are reducing our carbon footprint through eco-friendly product development, green manufacturing practices, and sustainable sourcing.

Corporate Social Responsibility (CSR)

Rooted in India, our CSR initiatives reflect our commitment to societal impact. Partnering with Hurricane Vets, an NGO co-founded by our late founder Dr. Elangovan, we focus on empowering underprivileged children through education. By providing scholarships, school supplies, and mentorship, we aim to create a brighter future for communities, aligning our growth with meaningful social contributions.

Conclusion

Timo Eva Wellness, with its stronghold in India, is transforming animal health through innovation, expertise, and a passion for sustainability. As we expand globally, we remain committed to ethical practices, environmental responsibility, and social good, ensuring a positive impact on animals and people alike. Building on our strong Indian foundation, we are poised to lead the global animal health industry into a healthier, more sustainable future.

Protec India Private Limited

M/s. Protec Trading Private Limited is established in year 2011 based in Thane. Maharashtra. India.

M/s. Protec Trading Private Limited is in to trading of specialty chemicals applicable exclusive for Refineries and Oil&Gas. We are mainly in to of benchmarking of fuels specially gasoline and diesel.

Our prime products are non-metallic octane booster, lubricity Improver and its latest technology to economically increase the octane of gasoline and help companies reduce production costs. Refineries may be using all or part of processes available within the configuration of the plant to produce gasoline having a specific octane number however additives and / or fuel components may have to be added to produce a gasoline having the required octane number to meet specification and that is commercially acceptable.

ProTec Technologies & Services offers to help your company produce gasoline at a lower cost by substituting all or part of the specialty chemicals (additives) and / or fuel components currently used.

Ganesh Textiles

Ganesh Textile has been in the business of manufacturing, Processing and trading of cotton / poly cotton / polyester fabrics for last 50 years. Since Inception it had been leading players in dyed and printed cotton fabric. Textile manufacturing industry has been consolidated all around the world, Ganesh Textile has moved towards trading, value addition and customised order-based works for various national and international clients. As on today it mainly focuses and sourcing and processing for value addition required by customised orders from customer. It uses its network of supplier and processors as well as in depth technical knowhow of the industry and manufacturing experience to keep itself ahead of the market and provide value for money service to our clients.

With a keen focus on quality control, the Group has implemented the process of backward integration. This ensures that there is never a compromise on the quality of the fabric. We are active in fabric distribution both woven as well as circular knitted and flat knitted fabrics

This is a glimpse of all our areas of specialization in the realm of textiles

- Cotton Fabric
- Polyester Cotton Fabric
- Polyester Fabrics

Ganesh textile want to expand and cater to new client base in Europe where it can provide a customised order-based service using its strength in Indian market and network all around the world.

SRI BOMMI SILK

Sri Bommi Silks - A Unit of Sri Angalamman Attire International was founded by B.S.Baskaran in 1980. Our journey began with a passion for authentic silk and a commitment to preserving the heritage of Indian craftsmanship.

For over four decades, we have been dedicated to offering a curated selection of exquisite silk fabrics across wide ranges that embody the artistry and cultural significance. All our silk fabrics are manufactured in Kumbakonam, Tamil Nadu, and are popularly known as "Thirubuvanam Silks" & "Kanchipuram Wedding Silks".

At our core, we believe that Silk fabrics are not just attire; it's a story woven in silk, connecting generations and cultures. Whether you're celebrating a special occasion or embracing everyday elegance, we invite you to explore our collection and experience the luxury of authentic silk.

Today, Sri Bommi Silks has grown as a brand and has expanded its wings in the Cotton Readymade Textiles too. The products that we offer to our clients are Pure Silk Fabrics, Men's T Shirts and Readymade Textiles.

Reach out to sribommisilks@gmail.com and we are here to assist you with more detailed insights.

SMP Engineers And Electricals Pvt Ltd

- Incorporated in the year 1996.
- Factories located in Nashik (Maharashtra) and Hosur (Tamil Nadu).
- IATF 16949:2016 Quality certified factories.
- Total number of employees – 260
- Revenue in 2023-24: INR 550 million (USD 6.50 Million)
- Export revenue (EOU and Direct): INR 20 million (USD 0.25 million)
- Activities - Sheet metal stamping and welding, Sheet metal deep draw components, Plastic injection molding, CNC machined and turned components.
- Competencies – In-house press tool and mold designing and manufacturing.
- Press machines capacity ranging from 25T to 200T. Double acting presses for deep draw components.
- Plastic injection molding machines capacity ranging from 90T to 260T.
- Inspection lab with latest equipment's such as CMM, Contour inspection, Ultrasonic hardness testing, coating thickness testing, air gauges.
- Welding machines such as high-capacity projection welders, spot welders, CO2 welders, Robotic welder, SPM's.
- CNC turning centers and VMC machines for machining components.
- IOT systems on machines to capture data for productivity, down time analysis, maintenance alerts.
- Operating Sectors – Automotive (Shock absorber components for 4WH, 2WH, Commercial vehicles; Exhaust system components; Wiper system components), Electrical Switchgear, Pump.
- Customers –

Automotive: Gabriel India Ltd, Tenneco Automotive, Lucas TVS, ZF India, KYB automotive suspension.

Non-automotive: ABB India Ltd, KSB Pumps India Ltd, Concentric pumps, C&S Electric, Havells India Ltd, British Engines India Ltd, Eaton switchgear.

Quaser Pharma Care

We as a company are Wholesalers and distributors in various positions with Government Of India, State Governments Of India, HLL lifecare Ltd (Govt of India PSU) Private sector supplies, Public Health Supplies, NTEP(National TB Elimination Program), COVID supplies and different types of Medical supplies with Injectables, Surgicals, equipments.

With our upcoming manufacturing facility in diagnostics(In vitro diagnostic (IVD) test kits) we will provide diagnosis of diseases easier and quicker through excellence in technology based on world class R&D.

We like to explore opportunities for Medical Business with our best Quality and Services we can Provide.

SRI TOOLS INDUSTRIES

SRI TOOLS INDUSTRIES, introduce ourselves as an ISO 9001:2015, one of the leading Manufacturer and Exporter of welding Machine Tools and Accessories since 1978. SRI Tools Industries is situated in North India approximately 300 km. Of north of New Delhi, Capital of India. Company works in Area of 6000 sq. Yds. Above 200 employees both skilled and unskilled, Professional Agencies, with installed machinery of USD \$2.00 Million and turnover of USD \$6.00 Million- annually, Mostly to the manufacturer of E.U in Welding Accessories.

Our Product line is as following:

- ELECTRODE HOLDERS
- EARTH/GROUND CLAMPS
- CABLE LUGS
- CABLE CONNECTORS
- HOSE ACCESORIES
- CHIPPING HAMMERS
- SPARK LIGHTERS
- G-CLAMPS DROP FORGED
- FLAME RETARDENT CANVAS CLOTH AND CAPS
- CURTAIN FRAMES

PRODUCTION FACILITIES AVAILABLE

- CNC LATHES
- CNC VERTICAL MACHINING CENTRE
- CNC PLASTIC INJECTION MOULDINGS
- IN HOUSE TOOL ROOM
- QUALITY CONTROL STANDARD ROOM
- IN HOUSE POWDER COATING FACILITY
- IN HOUSE LABORATORY TO CHECK CONFORMATION OF WELDING EQUIPMENTS AS PER CE STANDARDS.
- SHEET METAL DIVISION
- FORGING OF STEEL AND BRASS
- LASER MARKING MACHINE
- WELDING ROBERT
- IN HOUSE PHOSPHATING
- ROBO DRILLS

Malankara Plantation Ltd

Established in 1910, Malankara Plantation Ltd. is a leading agribusiness enterprise with over a century of experience in cultivating, processing, and distributing premium-quality plantation products. With a strong focus on sustainable agriculture and ethical practices, we specialize in producing high-grade tea, rubber, coffee, spices, and a variety of tropical fruits. Our commitment to maintaining international quality standards and adapting to evolving global market needs has positioned us as a trusted partner in the export sector.

We combine tradition with innovation, ensuring that our products meet the expectations of discerning global consumers while contributing positively to the environment and the local communities we serve.

Core Business Areas

1. Tea Plantations

Production of premium tea leaves with a distinct flavour and aroma.
Modern processing facilities that preserve the quality and freshness of the tea.
Compliance with international quality standards, catering to global markets.

Types of Tea Produced Using CTC Method:

Leaf Grades:

BP (Broken Pekoe) – Full-bodied, robust, and flavorful.

BOP (Broken Orange Pekoe) – Mellow, with a balanced flavour and strength.

BOPSM (Broken Orange Pekoe Small) – Strong and brisk, ideal for blends.

Dust Grades:

PD (Pekoe Dust) – Strong and brisk, commonly used in tea bags.

RD (Red Dust) – Produces a strong brew with intense colour.

SRD (Super Red Dust) – Highly potent with quick brewing properties.

D (Dust) – Fine granular particles that yield a strong, rich brew.

Our CTC teas are renowned for their rich colour, bold taste, and consistent quality, making them ideal for both domestic consumption and international export markets.

2. Rubber Plantations

Cultivation of high-quality natural rubber used in industrial and commercial applications.
Sustainable harvesting techniques with a focus on minimizing environmental impact.

Types of Rubber Produced:

Crumb Rubber (ISNR):

Processed through modern techniques to produce clean, uniformly textured rubber granules. Widely used in manufacturing tyres, sporting goods, and electrical components.

Centrifuged Latex(CENEX):

High-purity latex obtained through centrifugal separation, ensuring superior quality. Used in the production of medical devices, gloves, and other high-precision applications.

Our rubber products meet stringent international standards, ensuring consistent quality, durability, and safety for various industrial uses.

3. Coffee Cultivation

Production of superior Arabica and Robusta coffee beans. Processed to retain the finest flavour and aroma, catering to the export market.

4. Spices: Cardamom and Pepper

Cultivation of aromatic and high-quality spices, ideal for international spice markets. Emphasis on organic and sustainable farming techniques to meet global demand.

5. Tropical Fruits for Export

Malankara Plantation Ltd. has expanded its product portfolio to include high-value tropical fruits, catering to the growing demand in international markets:

Avocado: Grown in nutrient-rich soil, known for its creamy texture and high nutritional value.

Rambutan: Exotic and sweet tropical fruit with a vibrant red outer skin and juicy flesh.

Dragon Fruit: Rich in antioxidants, known for its vibrant colour and refreshing taste.

Pineapple: Naturally sweet and tangy, cultivated with care to ensure freshness and quality.

V ENTERPRISES

With our humble inception in 2015, we have carved our space as one of India's most trusted exporters of earthmoving equipment in the heavy commercial and industrial markets both nationally and internationally. We offer an extensive range of Road & Asphalt Machinery, Excavators, Forklifts, Mining Equipment & Spares, Generators, Tower Cranes and other equipment across various geographies around the globe. Our products adhere to the highest standards of quality, helping our clients from Construction, Road Building, Mining; Quarry Application and various other industries achieve success in the completion of their projects with our consultation and services. Our teams of highly qualified technical experts closely focus on the need and requirements of every individual client and lend in-depth consultancy and guidance to help our clients make the right purchase.

Over the past years, we have constantly developed and delivered excellence and with more than 100+ machines like crushers jaw and cone, mobile impactors, soil compactors, generators, rock drillers and compressors, tower lights, backhoe loaders, rollers, dozers and similar equipment exported and rented to various markets globally, we today have a pool of multiple clients and projects completed in partnership with our export and leasing services in both public and private sector. Our novelty being the biggest asset we bring to the table, our dynamism and modern outlook has helped us meet the changing trends and emerge as trusted market leaders in our segment.

We understand the cost of investment involved and want our clients to make an ideal purchase. To help achieve this, our team closely focuses on the need and requirements of every individual client and lends in-depth consultancy and guidance to help you make the right purchase based on right application and purpose of use. Our machinery and equipment come with assured quality standards from manufacturers leading the global landscape. Once the export order is confirmed, we further help clients to attain the most competitive price for local road transportation, ocean freight and insurance for door – door delivery to any part of the world. Over the past years we have constantly developed and delivered excellence and plan to further enhance our capabilities along the way.

Our fleet of heavy-lift machinery and earth moving equipment is one of the largest in the nation. It has the ability of handling multiple projects across various commercial sectors including construction, mining, automation, energy and power, oil and gas and many more.

ZENTRIAD

We are a Manufacturing-Exporter & trading company operating from India, concentrated in buying and_Selling of all Type Automotive Electronic Temperature Sensors, Industrial Electronics Products, Industrial and commercial plumbing items, All Kind of Aluminum related products or Industrial and cookware and all kind Electrical Terminals. Our strengths are a Wide network, reliable quality, manufacturing facility; custom build technical support, versatile approach and timely delivery. We are well experienced in Export from India as per the buyer specifications, requirements and Needs. Three pillars, who believe in the Zen philosophy of being simple, formed this triad, which is intended to help each other as well as our customers.

MAJOR PRODUCTS

1. NTC THERMISTOR TEMPERTAURE SENSORS FOR AUTOMOTIVE AND ELECTRONICS
2. BI-METTALIC SNAP ACTION TYPE TEMPERATURE THERMOSTATS FOR ELECTRONICS AND TEMPERTURE CUT OFF APPLICATIONS
3. PT-100 / PT 500 / PT 1000 TEMPERATURE ELEMENTS & CUSTOMIZED SENSORS
4. ALL TYPE INDUSTRIAL RTD/THERMOCOUPLE TEMPERATURE SENSORS (CUSTOM MADE ALSO PROVIDED)
5. TEMPERATURE INDICATORS & CONTROLLERS
6. TEMPERATURE TRANSMITTERS
7. BATH FITTINGS & SAINTARY HARDWARES
8. PVC PIPES AND FITTINGS (DIN/ASTM/BSEN STANDARDS)
9. ALUMINUM TOPES WITH HANDL AND LIDS (MULTIPLE SIZES WITH SETS AVILABLE)
10. STEEL AND ALUMINUM COOKWARES AND ACCERESIES
11. ALUMINUM RIVETS AND SAME KIND OF PRODUCTS
12. COPPER/ BRASS / ALUMINUM ELECTRICAL TERMINALS
