DEAR PARTNERS,

For 20 years now, the Bulgarian Chamber of Commerce and Industry has been presenting to your attention the rankings "TOP 100 Bulgarian companies leading in the economy", based solely on objective data from the financial reports of the companies. The jubilee edition of the ranking, with processed more than 6500 financial reports of companies in the real sector, is even more representative as they produced 83.22% of the country's GDP in 2017.

Over the past year the business has once again shown better results. In the dynamic market economy, for the Bulgarian companies a competitive and sustainable atmosphere for development is maintained. In 2017 Bulgaria was among the Top 10 EU member states by GDP growth. In addition to the good results reported by official statistics, BCCI's prognoses based on surveys conducted among its members, show continued positive trend, with the exception of workforce needs and the lack of finished e-Administration.

Each of the ranked companies can obtain a certificate for their place in the rankings. Companies that have not managed to submit their financial reports on time to be included in the TOP 100 ranking can check their place in the dynamic ranking TOP 1500+ which, being entirely electronic, allows updating at any time: http://www.bcci.bg/top1500/index_2017.html

For another year in a row, BCCI expresses its gratitude to the directors of the National Trade and Banking High School and the National High School in Finance and Business for the fruitful collaboration and cooperation of the students from both schools during the processing of the data.

BCCI congratulates the companies on the excellent results and believes that they will even be surpassed by the end of the year.

Yours sincerely,
Tsvetan Simeonov
President of BCCI
