

Interactive play for waiting rooms and recovery

Elevate patient care and comfort with safe, hygienic entertainment

eyeclick.com

The Pioneers of Interactive Play

For nearly two decades, EyeClick is proud to be the market leader in interactive technology. Our award-winning systems are found in over 20 thousand locations worldwide, garnering over 20 million interactions each month.

To date, EyeClick is used in over 2,000 waiting rooms and pediatric care centers across the U.S. and around the globe, as well as notable hospitals such as Shriners, Nicklaus, and Johns Hopkins. By combining the excitement of digital games with immersive physical activity, EyeClick provides the perfect activity to deal with pre-appointment stress.

Let's just say we're changing the game. Literally.

They'll Never Miss Another Appointment

Explore 200+ multiplayer games and activities that will captivate every visitor.

Elevate your facility above the rest with unforgettable patient experiences.

Easy-to-use, intuitive play that even 3-year-olds will love!

Choose from a variety of sports, educational, and strategy games to keep everyone entertained.

Captivates kids of all ages and abilities, keeping them happy and engaged.

Reduce staff workload - EyeClick keeps patients entertained all on its own.

Return on investment

What a fantastic system! Beam has dramatically transformed our patient experience. The kids actually complain when it's time to leave, upset that they can't continue to play EyeClick for a little longer! EyeClick is definitely the best investment I've ever made for my practice.

Steven Lichtenstein MD
Medical Director of Pediatric Ophthalmology, Children's Hospital of Illinois

Not just entertainment...

Not only are the EyeClick games fun for our patients, but it also provides a therapeutic activity that encourages movement, cognitive processing, and a delightful way for our patients to connect and make a friend while in the hospital. EyeClick is the bomb!

Pre-appointment stress relief

We love our EyeClick gaming system and so do our patients! We have found that it's a great way to 'break the ice' and calm any nerves. It's hard to be nervous when you're dancing and laughing! Thank you for making such a great product!
